

California Rural Water Association's Preferred Provider Program

Savings and Resources for your Water/Wastewater Utility

Provided below is a preview of CRWA's new Preferred Provider Program. This program is available to members of California Rural Water Association. If you have questions regarding the discounts available to you as a member, please contact Dustin Hardwick Director of Resource Development California Rural Water Association at 1-800-833-0322.

* To take advantage of the Preferred Provider Program benefits and additional membership benefits, please view our [membership application](#) and fee schedule.

The Power of CRWA Working For You

You rely on CRWA for your technical and educational needs; now CRWA will be able to help utilities collectively leverage their buying power through the value added products and services offered in this new program. CRWA's main goal is to provide significant benefit to California's rural systems.

Laboratory Analytical Services

As a CRWA member you can save an average of 20% off analytical testing (Three Labs are a part of this program Test America, BC Labs and BSK Analytical)

Utility Software Suite

Solutions for your Utility Management needs

Leak Detection Services

Special discounted rate for CRWA members

Engineering Services

Engineering resources with your needs in mind, including discounted rates for CRWA members

Web Based Real-Time Monitoring of device sensors such as Temperature, Water flow, and Life/Safety devices

CRWA members Save up to 20% on monthly service

Utility Electronic Bill Presentment and Payment Services

Special discounted Implementation and processing rate for CRWA members

Solar Power Photovoltaic Systems

Special equipment incentive offered to CRWA members

- Full service environmental laboratory network
- Locations throughout California (including: Irvine, Pleasanton, West Sacramento, Berkley, Ontario, Los Angeles, and Morgan Hill)
- Specialty testing
- Waste water, drinking water, soil, air, and sediment capabilities
- Member pricing (discounted rates)

One Stop for All Your Utility Solar Needs
Providing Long Term, Clean, Renewable Energy
While Maximizing Return on Investment

SPG Solar Offers Comprehensive Turnkey Services:

- Professional On-Site Assessment
- Custom Installation
- Ongoing System Monitoring
- In-House Design And Construction
- Quality Innovative Proprietary Products

SPG Solar will handle every last detail so that you don't have to. If you are ready to go solar, SPG is ready to help.

For further information contact Ed Orrett SPG Solar at (310) 822-6303 E-mail: ed.orrett@spgsolar.com or visit their website at www.spgsolar.com

SEMS Software Suite is the Total Compliance Resource for Drinking Water and Wastewater Utilities

Software Functions include but are not limited to:

- Consumer Confidence Reports (CCR's)
- Asset Management with Depreciation Schedules

- Cross Connection Control/Backflow Prevention
- Total Coliform Rule and Monitoring
- Sampling and Monitoring Recordkeeping
- Inventory and Part Management
- Equipment Maintenance Scheduling with Service Logging
- Discharge Monitoring Reports (DMR)
- Public Notification Templates
- Customer and Staff Management

SEMS Environmental, Security and Back office tools provide the ability to easily meet regulatory requirements and help manage administrative operations.

For further information contact Kurtis Warne at 866-758-6582 E-mail: kurtis.warne@semstechnologies.com Website: www.semstechnologies.com

Web Based Data Collection, Monitoring and Notification:

- Secure Web Remote Access to SCADA, RTU, & PLC Data
- Centralizes & Consolidates Information into a single Database Location
- Real Time Data Available Centrally for Monitoring, Analysis, & Alerts
- Online Secure Access for Concise Organized System Information
- Alerts & Notification of Critical System Readings

Sentry Track gets the right data to the right people at the right time.

For further information contact Steve Peterson Sentry Track Systems at: 866-824-8977 E-mail: sales@sentrytrack.com Website www.sentrytrack.com

Specializing in Identification of Unaccounted Water Loss through various Leak Detection methods, such as correlation services

Municipal Services Include:

- Underground Utility Location
- Complete Leak Surveys on Water Distribution Systems
- Trenchless Pipe Replacement

American Leak Detection is the Municipal Leak Detection Expert.

For further information contact Jimmy Carter with American Leak Detection at: 800-755-6687 E-mail: jcarter@americanleakdetection.com Website: www.americanleakdetection.com

Best Practice Systems powered by CheckFree iSeries software not only makes it possible for Utility customers to receive and pay bills online, but also gives utility companies the ability to cut costs through suppressing paper and reducing customer service calls.

Available Components:

- Custom eBill Website Hosting
- Electronic Bill Presentment
- Electronic Payment Processing
- Electronic Enrollment Reporting

eBill is also a significant way in which to keep the environment green. CRWA members receive special pricing on this money saving service.

Best Practice Systems is an affiliate of CheckFree now part of Fiserv and is a leading provider of financial electronic commerce services and products.

For further information contact Larry W. Linder with BPS CheckFree at: 888-923-2455 E-mail: linder@cwo.com Website: www.bestpracticesystems.com
