

Chlorine Disinfection & Basic Water Math

Free Training Sessions Presented by California Rural Water Association

El Centro – Rancho Mirage – Barstow

Chlorine Disinfection: The chlorine disinfection process will be reviewed, with emphasis on figuring doses, basic chlorine chemistry, solving taste and odor complaints, dealing with disinfection byproducts regulations, sampling procedures and the total coliform rule. We will also cover alternative disinfection processes.

Basic Water Math: We will cover dosages, flow, volumes, pounds, formulas, water loss, and other related math problems. All types of math problems will be reviewed during class, with step-by-step calculations for each math problem.

Instructor: Dan DeMoss currently holds the position of CRWA Executive Director. Dan has been in the water/wastewater industry since 1985, starting as a small town operator and working up to the public works foreman position. He started in the technical assistance and training field in 1990. Dan has been in contract operations as a plant operator and system manager, water industry sales and service, and has extensive experience in the underground utility contracting field. He holds certifications in water treatment, distribution, wastewater treatment, and collections.
